

FOB Paddle Event.

Another successful event, thanks to the hard work of all our volunteers and sponsors. We signed up 10 new members, got a great tour of the Creek, including an awesome mangrove tunnel, even had a guitar serenade. Photos to follow soon.

Special thanks to Liz Donley for providing the kayaks. Also to FOBers Carol, Bill, Rick and Caroline for their assistance with registration and logistics. Karen did a spectacular job coordinating all. The City of Ft Myers provided bottled water and staff to assist with the boats. Betsy Clayton gave an overview of the Blueway and Councilman Wright told us about upcoming efforts to secure land and funding for the Creek. Bagel Factory supplied great bagels. CHNEP provided the grant for the t-shirts. Jerry Miller brought us some fruit and offers his office for our meeting space. FDEP provided staff assistance. I hope I did not forget anyone, but we will do a follow-up release to the City for their website, so let me know if I did.

Great weather, great kayaking, great fun!
